

VATICAN ROUGH ON ROOSEVELT
Issues Statement Saying Holy Father Highly Disapproved of Abbot Janssens' Initiative
IS ALMOST INSOLVENT TO HIM

Does Not Want Him "To Bracket the Pope" With "Royal Personages He Will Boast of Having Hunted."

Rome, April 12.—The Vatican has issued a statement with reference to a call made by Abbot Lawrence Janssens, one of the most learned Benedictines and secretary of the congregation of affairs of religion, on ex-president Roosevelt, on the eve of the latter's departure from Rome.
Abbot Janssens did not find Mr. Roosevelt at home, but left his card, on which he wrote in French that he desired to congratulate Mr. Roosevelt for the constant support given to his order and to the Catholic church in general in America during his "glorious career," as president, which he hoped would soon be resumed.
The holy father has highly disapproved of Father Janssens' initiative towards Mr. Roosevelt, as cabined through the Associated Press, as this act of his evidently lends itself to an interpretation offensive to the holy father. Father Janssens acted through his own impulse, without any authorization from anyone whatever.
The statement further emphasizes the Vatican policy, which, to use its own words, was that "it did not wish Mr. Roosevelt to bracket the pope with other more or less royal personages he had been of having hunted in Europe and his African hunt."

PINCHOT SATISFIED WITH VISIT TO COLONEL

Porto Maurizio, April 12.—After spending a second day with Mr. Roosevelt, this afternoon being occupied in another long tramp into the mountains, Gifford Pinchot left for Zurich tonight, seemingly in a happy state of mind. He still declined to make any statement with reference to his conference with the ex-president, but his leading countenance was as eloquent as words.
"Will you say whether you are satisfied with the result of your visit?" was asked, but Mr. Pinchot only smiled broadly.
Mr. Roosevelt evidently is not greatly excited over the conclusions that may be drawn in the United States from the announcement made today that he had accepted an invitation from the former chief forester to address the national conservation congress this summer.
"My actions are frequently misunderstood," he said, speaking of the matter this evening. Mr. Roosevelt then explained that very naturally his interest in the conservation movement had in nowise been dampened by the trouble that has occurred in the department. He said he would have attended the congress regardless of what had happened during his absence and that in his address he would not necessarily speak of the past, but of the future.

AN UP-TO-DATE DRUGGIST

It is surprising how many old-fashioned remedies are being used, which show that it is hard to improve some of our grandmothers' old, time-tried remedies. For instance, for keeping the hair dark, soft and glossy, nothing equals the grandmothers' "sage tea" has ever been discovered. Although, by the addition of sulphur and other ingredients, this old-fashioned brew has been made more effective as a scalp tonic and color restorer. Nowadays when our hair comes out or gets faded or gray, instead of going to the garden or getting for herbs and making the "tea" ourselves, we simply go to the nearest drug store and ask for a bottle of Wyeth's Sage and Sulphur. This preparation is sold by all leading druggists for 25 cents and \$1 a bottle, or sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by Schramm & Johnson, drug, special agents.
To Stop a Cough in a Hurry.
With this recipe you can make a pint of cough remedy at home in five minutes. A few doses usually conquer the most obstinate cough. Simple as it is, no better remedy can be had at any price.
Put 2 1/2 oz. of Pinex (fifty cents) in a clean pint bottle and fill up with Granulated Sugar Syrup, made as follows: Take a pint of Granulated Sugar, add a pint of warm water and stir for 5 minutes. Take a teaspoonful every one, two or three hours. The taste is very pleasant—children take it willingly. Splendid, too, for colds, chest pains, whooping cough, bronchitis, etc.
Granulated Sugar makes the best syrup. Pinex, as you probably know, is the most valuable concentrated compound of Norway White Pine Extract. None of the weaker pine preparations will take its place. If your druggist hasn't the real Pinex, he can easily get it for you.
Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup.

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound

De Forest, Wis.—"After an operation four years ago I had pains downward in both sides, backache, and a weakness. The doctor wanted me to have another operation. I took Lydia E. Pinkham's Vegetable Compound and I am entirely cured of my troubles."—Mrs. MRS. AUGUST VESPERMANN, De Forest, Wisconsin.
Another Operation Avoided.
New Orleans, La.—"For years I suffered from severe female troubles. Finally I was confined to my bed and the doctor said an operation was necessary. I gave Lydia E. Pinkham's Vegetable Compound a trial first, and was saved from an operation."—Mrs. LILY PEYRON, 1111 Kerlerec St., New Orleans, La.
Thirty years of unparalleled success confirm the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

If you want special advice about your case write to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

stood," he said, speaking of the matter this evening. Mr. Roosevelt then explained that very naturally his interest in the conservation movement had in nowise been dampened by the trouble that has occurred in the department. He said he would have attended the congress regardless of what had happened during his absence and that in his address he would not necessarily speak of the past, but of the future.

SULPHURIC ACID THROWN IN GIRL'S FACE

San Francisco, April 12.—Suddenly attacked in broad daylight by an unknown man who dashed a quantity of sulphuric acid into her face, Miss Ruth Frances Wilson, 18 years old, daughter of Joseph Wilson, general deputy of the National Union for the district of California, lies in a local hospital suffering terrible agony from the burns on her face and neck. The sight of one eye is destroyed, and the doctors say that it is hardly probable that the other eye will be saved. Her assailant escaped, and the detectives have been unable to find any trace of him. The girl is not able to give a coherent account of the assault. The police are making an effort to locate a high school student whose attentions were objectionable to the girl.
Miss Wilson was late this afternoon passing along Sutter street, opposite the Cosmos club and only a short distance from her home when she was called to her. The girl turned and in another instant a stream of burning fluid struck her full in the face. It ate its way into her eyes and filled her mouth, corroding frightful furrows down her face and neck. She fell to the sidewalk and was picked up by passersby, who carried her to a doctor's office.
Miss Wilson was a student at the Lowell high school until recently, and was known for her beauty.

NOW SELLING GOATS' MEAT.

New York, April 12.—The high price of mutton and lamb has led East Side butchers to offer goats' meat as a substitute. The meat is said to give satisfaction and the price is 5 to 7 cents a pound lower than mutton.
EMINENT AUTHORITIES SAY
that outdoor exercise is needed by the American people. That's all very well, but how can people with rheumatism follow this advice? The answer is very simple—use Ballard's Snow Liniment and the rheumatism will go, leaving you as spry as a colt. Gives quick and permanent relief from rheumatism, neuralgia, lame back and all pains. Sold by M. I. Drug Dept., 112 and 114 South Main St., Salt Lake City.

Cars from Mt. Olivet to Park Crescent free every half hour from 11 a. m. to 3 p. m. Take street car to Mt. Olivet. Free ride from there on.

CLAY MODEL OF BUST OF PRESIDENT TAFT

Washington, April 12.—Robert I. Aitken of New York finished today the clay model of a bust of the president, which is said to be destined either for the metropolitan museum of art in New York or the Corcoran art gallery in this city.
The sculptor has worked on the president's bust while the latter has received visitors and carried on the general executive work of the day. This method of posing was chosen by the sculptor and was readily accepted to by the president.
Mr. Aitken formerly lived in San Francisco, where he did much work for the municipality. His statue to the American navy stood in Union square unharmed by earthquake and fire.

TUFTS CEASES TO BE COEDUCATIONAL

Medford, Mass., April 12.—By a vote of its trustees today Tufts college ceased to be a coeducational institution. As soon as the new changes can be made in the charter of the institution, a new college, to be known as the Jackson college for women, will be established. Until the necessary charter changes can be brought about the college will continue to be a coeducational department of Tufts college. A committee appointed to investigate the question of segregating the sexes recommended that such segregation be made.

SHIP SUBSIDY INVESTIGATION

Ex-Prest. Goulder of Merchant Marine League Accused of Dodging.

DECLARED HAD BEEN FRANK

Members of League Actuated by Patriotic Motives in Urging Legislation for Shipping.

Washington, April 12.—"You dodged to avoid going back on your associates of the Merchant Marine League of the United States," was the thrust passed to Harvey D. Goulder of Cleveland, O., former president of that organization, by J. H. Ralston, attorney for Representative Stearnson, at today's session of the ship subsidy investigation.
Mr. Goulder denied the statement and said he had been entirely frank in his testimony.

Mr. Goulder, William Livingston of Detroit and Joseph Stewart, second assistant postmaster general, were today's witnesses at the inquiry into the charges that the league had reflected upon the integrity of Mr. Stearnson and other members of Congress in connection with ship subsidy legislation.
Mr. Goulder testified he had indorsed a note for \$5,000, which he had placed in a bank to the credit of the league; that he did not know the source of the note, whether it came from membership dues or from the officers of the league themselves. His memory was hazy, but he thought the note might have been put in the bank to anticipate the membership dues so as to have credit to meet expenses.
The officers and members of the league, Mr. Goulder insisted, in urging legislation for the encouragement of the merchant marine were actuated by patriotic motives; that so far as he knew none of the officers expected any direct personal benefit from the passage of the ship subsidy bill, and that Mr. Stearnson's statement to the contrary was untrue.

Atty. Ralston tried to bring out that most of the officers, if not all, expected to be benefited by the proposed legislation; that a number of them were financially connected with steel and iron or transportation by water, but Mr. Goulder replied that he knew of none such, and if there were any they were so few as to be negligible. The witness admitted he had some savings invested in lake vessels engaged in general traffic. He is attorney for the Lake Carriers' association, representing more than 60 per cent of lake traffic.

Mr. Goulder said he had no reason to believe congressmen had been subsidized. His expenses in connection with the league, he said, all told were little more than \$1,000, which, to some extent, he paid himself. He likened the league to a chamber of commerce or a maritime exchange, in that its purpose was educational.
He said he had no reliable information about ships having been built at Cleveland for Pacific ocean service, and said he had heard a shipbuilder say it was impossible. He reiterated that none of the Cleveland people, nor any one else, so far as he knew, expected to get contracts of advantage under this legislation.

Mr. Livingston denied the league was an organization of interested persons, so far as any expectations of pecuniary profit was concerned. Mr. Stewart discussed data as to ocean steamship lines.

A KNOCKER

is a man who can't see good in any person or thing. It's a habit caused by a disordered liver. If you find that you are beginning to see things through blue spectacles, treat your liver with good cleaning out process with Ballard's Horebina. FIVE WOMEN SENTENCED FOR SHOPLIFTING IN CHICAGO

Chicago, April 12.—Vanity led six women before Judge Wallis of the Harrison municipal court to be punished for misdeeds yesterday and revealed a veritable epidemic of shoplifting in Chicago. Five were sentenced. In each case the desire to possess raiment beyond her means, caused the young women's downfall. One with black hair, was charged with stealing peroxide to bleach her hair, a blue silk dress, a hair brush and a hair comb. She was fined \$10 and given one day in jail. The others were given sentences of from two months to one year in the house of correction.

VERT ANTIQUE FOR NEW YORK LAMP POSTS

New York, April 12.—Vert antique, the classic shade of green which bronze statues assume under the caresses of varying weather, has been adopted for the lamp posts in New York park. The department of gas lighting and electricity declares that the dull green paint, with the aid of wind and rain, will soon give the posts the appearance of having been cast from bronze and then exposed to the elements for a few centuries. The department's painters will be kept busy for four months applying the treatment for inducing aesthetic old age.

Are you frequently hoarse? Do you have that annoying tickling in your throat? Does your cough annoy you at night, and do you raise mucus in the morning? Do you want relief? If so, take Chamberlain's Cough Remedy and you will be pleased. Sold by all dealers.

NO ALGEBRA IN CHICAGO ELEMENTARY SCHOOLS

Chicago, April 12.—Algebra will not be taught in the elementary public schools of Chicago any longer, if a revision plan is carried through.
"There is no use in teaching children the elements of algebra unless they intend to go on with the study—and most of them don't," said Mrs. Young, superintendent of schools yesterday, "and

there are things in the arithmetic that should be eliminated. For example, we shall eliminate the computation of compound interest.
"And what is the use of teaching children to compute interest and discount on money? When they get enough money to cause them to think about interest and of discount they'll learn how to compute them quickly enough."

ALL STEAMERS TO EUROPE ARE SOLD OUT

Chicago, April 12.—William E. Curtis, in a letter to the Record-Herald, under New York date, says:
"Every steamer that leaves this port between the 15th of April and the 1st of August is sold out and every cabin on every steamer leaving Europe from the 1st of August to the 1st of November is already engaged by the returning tourists. There was never such a begonia of pleasure-seekers before, and steamship agents say they could have sold 50 per cent more tickets if vessels had been available. People have had applications in for six weeks without receiving any encouragement, and the waiting list at every steamship office in New York contains the names of hundreds who are hoping that somebody may give up their cabin and thus give them a chance."

Medicines that aid nature are always most successful. Chamberlain's Cough Remedy acts on this plan. It loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by all dealers.
